

 Vall
d'Hebron

Alongside people. Advancing health.

Vall d'Hebron Barcelona Hospital Campus is one of Europe's leading healthcare campuses.

It brings together five institutions:

Vall d'Hebron University Hospital,
Vall d'Hebron Research Institute,
Vall d'Hebron Institute of Oncology, Multiple
Sclerosis Centre of Catalonia and
Universitat Autònoma de Barcelona

Together, we share the same pioneering spirit and a common purpose: **to improve people's health and well-being at every stage of life**, from before birth through older age.

A world-leading healthcare campus

9,641 professionals

2,179 active clinical trials

3,181 professionals dedicated to research

50 accredited specialties

17 buildings

641 residents

98 research groups

2,142 indexed publications with an impact factor

We strive to be recognised as an innovative organisation across every aspect of our work, distinguished by the excellence of our people and the quality of the care, research and education we deliver. By generating and translating knowledge into practice, we contribute to a more sustainable and forward-looking healthcare system.

The new Vall d'Hebron

Building the Campus of the Future

New facilities for clinical care, research and education, together with new buildings and a redesigned campus layout, will strengthen a unique model where knowledge flows faster and is translated more rapidly into better care for people.

The new Vall d'Hebron

Transforming Spaces

- New VHIR building and new heliport, already operational
- New Outpatient Care building (56.000 m²)
- New spaces for the Emergency Department, laboratories, and logistics (FULL Building)
- New Hi-Màgic! Comprehensive Pediatric Surgery Center
- New VHIO building
- Cemcat expansion

The new Vall d'Hebron

Transforming the way we deliver care

The organisational model of **Vall d'Hebron University Hospital** breaks down the traditional boundaries between specialties and professional groups.

It is built around **35 knowledge areas** (29 specialty-based and 6 cross-cutting), enabling more integrated, coordinated and patient-centred care.

Vall d'Hebron Research Institute

At the **Vall d'Hebron University Hospital Foundation - Research Institute**, we promote biohealth research and innovation.

Our goal is to find and apply solutions to people's health issues, because the research of today is the medicine of tomorrow.

We are world leaders in clinical trials with more than 50 research groups.

Vall d'Hebron Institute of Oncology

We are **an internationally recognised centre of excellence for integrated oncological research**, dedicated to developing targeted and personalised treatment for cancer and translating our discoveries into clinical benefits for patients.

Multiple Sclerosis Centre of Catalonia

We are **a leading centre for the diagnosis and integrated treatment of Multiple Sclerosis.**

We work hard to achieve early diagnosis and to personalise treatment, including providing neurorehabilitation.

UAB

Universitat Autònoma
de Barcelona

Autonomous University of Barcelona (UAB)

The curriculum of UAB degrees is based on competencies and provides medical training focussed on the needs of society today.

The Faculty is integrated in the **world of competitive research** in the field of biomedicine and biotechnology, enabling students to come into contact with the latest scientific advances, an important factor in complementing their academic training.
