

INSPIRE Program

Agenda

15–16 November 2018

Vall d'Hebron University Hospital, Barcelona, Spain

Day 1: 15 November 2018

Time	Topic	Presenter
08.30–08.45	Welcome and introduction to INSPIRE program	Raul Abella, Ferran Rosés
08.45–09.15	Collaborative care	Constancio Medrano
Part 1: Diagnosis and medical treatment of arrhythmias in children (I)		
09.15–09.35	1. Fetal arrhythmias	Queralt Ferrer, Gemma Giralt
09.35–09.55	2. Supraventricular tachycardia protocol in the accident and emergency department	Marc Figueras, Pedro Betrian
09.55–10.15	3. Post-operative arrhythmias in children with congenital heart disease	Marcos Lines, Ferran Gran
10.15–11:00	Coffee	All
11.00–12.40	Proactive prevention of respiratory syncytial virus	Constancio Medrano
Part 2: Arrhythmias in patients with channelopathies and myocardiopathies		
12.40–13.00	4. Sudden cardiac death in children: Symptoms we cannot miss	Paola Dolader, Ferran Rosés
13.00–14.00	Lunch	All
14.00–14.20	5. Electrocardiogram changes and arrhythmias in patients with myocarditis	Ferran Gran, Maria Martínez
14.20–14.40	6. Key aspects of genetics for understanding inherited cardiac conditions	Marta Codina, Paula Fernandez
14:40–15.00	7. The risk of sudden cardiac death in pediatric patients with chronic heart failure on the waiting list for cardiac transplant	Zdenka Reinhardt, Dimpna Albert
15.00–15.20	8. Indications of implantable cardioverter-defibrillator in pediatric patients with chronic heart failure	Dimpna Albert, Ferran Gran
15.20–16.00	Coffee	
16.00–16.25	Ethics	Ferran Rosés, Carolina Juzga
16.25–17.25	Difficult cases: Case presentation 1	All, led by Ferran Rosés
17.25–17.30	Meeting close	

Time	Topic	Presenter
08.30–08.35	Welcome to Day 2	Ferran Rosés
Part 3: Diagnosis and medical treatment of arrhythmias in children (II)		
08.35–08.55	9. Dyssynchrony assessment using echocardiography	Gemma Giralt, Ferran Rosés
08.55–09.15	10. Surgical implant of cardiac devices in children: <ul style="list-style-type: none"> • Pacemaker • Implantable cardioverter-defibrillator–cardiac resynchronization therapy (ICD-CRT) 	Joaquin Fernandez, Joaquin Perez
09.15–09.35	11. Stepwise approach to understanding electrophysiology studies and usual cardiac ablation <ul style="list-style-type: none"> • Atrioventricular re-entrant tachycardia • Atrioventricular re-entry tachycardias 	Ferran Rosés, Jaume Francisco
09.35–09.55	Building real-world evidence to inform clinical decision making	Zdenka Reinhardt
09.55–10.15	12. Role of left cardiac sympathetic denervation in treating ventricular arrhythmias	Ferran Rosés, Anna Lain
10.15–11.00	Coffee	All
11.00–11.30	Health economics	Constancio Medrano
11.30–11.50	13. Arrhythmias and sudden cardiac death in adult congenital heart disease patients	Antonia Pijuan, Laura Dos
11.50–12.20	The role of nurses and allied health professionals	Helena Tornos
12.20–12.40	14. How to do magnetic resonance imaging in patients with arrhythmias and pacemakers or implantable cardioverter-defibrillators	Anna Sabaté, Lucia Ríaza
12.40–13.00	15. Inherited cardiac conditions: Clinic teamwork approach	Ferran Gran, Ferran Rosés
13.00–14.10	Lunch and Difficult cases: Case presentation 2	Berta Miranda, Carolina Juzga
14.10–14.50	Guided tour through the pediatric unit and campus	Ferran Rosés
14.50–15.10	Looking to the future <ul style="list-style-type: none"> • Action planning and discussion <ul style="list-style-type: none"> ○ What can I do when I return to my clinic? ○ What do I have in my clinic? ○ How can I use my resources? Mid- and long-term actions 	Ferran Rosés, Constancio Medrano
15.10–15.30	Diploma ceremony	Ferran Rosés, Constancio Medrano
15.30	Meeting close
